BOY 13 IS WINNER OF SWEEPSTAKES

Homer Joy Learned Game on New York and Long Island Courses.

(Special to The Evening World.) LOS ANGELES, Calif., April 6-The gweepstakes at the Redlands Country Club was won by Homer Joy, the thirteen-year-old son of Dr. H. T. Joy. The lad, who learned the game on the courses of New York and Long Island, played a gross 34. His sixteen handicap gave him a winning net of 78.

When Ira Vail, the Brooklyn automobile driver, appears here Sunday in the American championship races, he is expected to cause motor entibusiasts to sit up and take notics Instead of wearing overalls, Vall will wear a tailor-made driving suit. The coat will be snitched to the trousers to prevent the talls from flying. The idea, it is claimed, is new with Vail and his tailor.

William Gibbs McAdoo and Mrs. MaAdoo were dinner guests of the Chester T. Hoags of Hollywood and afterward attended a performance by Henrietta Crosman in Hollywood Community Theatre. The dinner was notable for the use of ostrich plumes for decorations. Magnificent plumes of blue, green and pink, all in pale

Watch the Film Go

That film which dims your teeth

Your teeth are now film-coated, more or less. Perhaps the film is cloudy, so the teeth look dim.

Look at them. Do they glisten as they should? If not, try this new method and watch how they change in ten days.

Millions of people have done this. You see the results on every hand - in teeth you envy, maybe. Do what they do-combat the film. Then see how well it pays.

That film does this:

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. The ordinary tooth paste does not end it. Brushing does not keep teeth free.

Month after month it may linger to do a ceaseless damage. Most tooth troubles are now traced to film. And, despite the tooth brush, they have constantly increased. Very few people escaped them.

The film absorbs stains, making the teeth look dingy. It is the basis of tartar. It holds tood substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

Years devoted to it

Dental science has for years sought to end that film. Its baleful effects make it supremely important.

Ways have now been found to fight it. Authorities have proved them beyond question. Now leading dentists everywhere adwas their daily use.

The methods are combined in a dentifrice

effects. All druggists supply the large tubes.

The New-Day Dentifrice

The scientific film combatant, approved by modern authorities and now

advised by leading dentists everywhere. Each use brings five desired

called Pepsodent - a tooth paste based on modern science. And a 10-Day Tube is being sent to anyone who will try it.

Other desired effects

Modern authorities have also found the need for helping Nature. Our starchy diet makes this necessary. To cope with the possible effects of this diet, we should stimulate Nature's teeth-protecting agents.

So Pepsodent multiplies the salivary flow. It multiplies the starch digestant in the saliva. That is Nature's agent for digesting starch deposits which may otherwise cling and form acid.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer of the acids which cause tooth decay.

Bach use of Pepsodent gives multiplied power to these tooth-protecting forces. And that alone, it is believed, means a new dental

Old-time tooth pastes, based on soap and chalk, brings just opposite effects. Such effects must be avoided, as modern research

You'll quickly know

The user of Pepsodent cannot doubt the benefits it brings. Some results are almost instant. A week reveals conspicuous effects.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

A book we send will tell the reasons. Then you will know, beyond all question, what is best for you and yours.

How your dentist displays the film

Your dentist, when you visit him, may coat your teeth with iodine. That stain shows up the film. Then he removes the film by vigorous dental cleaning.

Pepsodent combats the film-coats daily. It aims to prevent those deposits. Otherwise, between your dental visits, the film may do much damage.

film attacks. Dentists advise that Pepsodent be applied twice daily from the time the first

Men who smoke will often deeply stain the

So to all in your family this question is important. It is time to settle it, as millions have done. Cut out this coupon now.
